

A Max Fan Pro Series EC motor in a Silencer, with the highest aerodynamic efficiency and the best energy consumption level due to the EC technology motor, together with the 3D rotor stator system. The powerful but silent operation is the result of the uniform turbulence free air flow and the continuous Can Fan EC Controller.

+ Max Fan Pro Series inside a silencer

+ More silent and more powerful

+ Speed control integrated

Galvanized metal housing

Easy to use Jack Connection

Foam padded silencer for maximum noise reduction

New EC technology motor

OPTIONAL
Combine with LCD EC Fan controller

CAPACITY
