

SILENCERS

Silencers are designed to reduce the noise caused by moving air. Mineral wool insulation minimalizes unwanted fan noise.

- + Effective noise reduction
- + Durable casing
- + Easy to use and mount

Mineral wool insulation minimalizes unwanted fan noise

Continuously welded casing

Sturdy steel construction

MATERIAL

| CODE | FILTER | MM | CM | CM | KG | HOUSING | PRICE |
|--------|-------------|-----------------|-----|-----|-----|---------|-------|
| 8590 | 45CM / 180 | 100/125 | 180 | 45 | 3 | STEEL | |
| 8591 | 45CM / 300 | 125/150/200/250 | 300 | 45 | 5,5 | STEEL | |
| 7622 † | 50CM / 380 | 150/200/250/315 | 380 | 50 | 7 | STEEL | |
| 7623 † | 100CM / 380 | 150/200/250/315 | 380 | 100 | 11 | STEEL | |

Because of the number of flange/silencer combinations available, the flanges are sold separately. See below for standard sizes and prices. A 25% discount is applied to each pair of flanges ordered with a filter so the pricing is as follows for flanges sold with silencers.

* As an exception to the above, the price of the 45/180 is inclusive of 2 x 125mm flanges.

| FLANGE SIZE | PRICE |
